

BOB JOHNSON

Senior DevOps & Infrastructure Engineer

Email: bob.johnson@email.com | Phone: +1-555-0103 | LinkedIn: linkedin.com/in/bobjohnson-devops

SUMMARY

Dedicated DevOps Engineer with 6 years of expertise in automation, cloud computing, container orchestration, and continuous integration pipelines. Strong advocate of Infrastructure as Code (IaC).

EXPERIENCE

CloudOps Labs - Lead DevOps Architect (2022 - Present)

- Built cloud architectures in AWS using Terraform, Ansible, and Docker containers.
- Maintained production Kubernetes clusters (EKS), optimizing resource allocation.
- Built automated pipeline suites using Jenkins, GitLab CI, and GitHub Actions.

SaaSify - Systems Administrator (2018 - 2022)

- Managed Linux server clusters, running Nginx and Apache reverse proxies.
- Setup system monitoring dashboards using Prometheus and Grafana dashboards.

EDUCATION

Bachelor of Science in Computer Engineering - Texas A&M University (2014 - 2018)

SKILLS

Cloud: AWS, Azure, GCP

DevOps: Docker, Kubernetes, Terraform, Ansible, Jenkins, CI/CD

Servers: Linux, Nginx, Apache, Prometheus, Grafana

Languages: Bash, Python, Go
